

SHIV MEHTA

AI / ML ENGINEER

Ahmedabad, Gujarat, India | +91 7990584463 | shivmehta337@gmail.com | linkedin.com/in/mehtashiv | github.com/Shivmehta04 | Portfolio: shivmehta.vercel.app

PROFESSIONAL SUMMARY

AI/ML Engineer and final-year B.Tech Computer Science & Engineering student with hands-on experience designing, training, and deploying end-to-end machine learning systems across supervised learning, natural language processing (NLP), and unsupervised learning. Built and shipped 3 production-deployed ML web applications (Python, Scikit-learn, Streamlit) achieving up to 88% model accuracy, with strong foundations in data preprocessing, feature engineering, model evaluation, and cloud deployment. AWS Certified Cloud Practitioner seeking an AI/ML Engineer or Data Scientist role to build scalable, data-driven products.

TECHNICAL SKILLS

Languages: Python, SQL, HTML, CSS

ML / DL Frameworks: Scikit-learn, TensorFlow, PyTorch, NLP (TF-IDF, Tokenization, Text Classification)

ML Techniques: Supervised Learning, Unsupervised Learning (K-Means, Clustering), Regression, Classification, Feature Engineering, Model Evaluation, PCA

Data & Visualization: NumPy, Pandas, Matplotlib, Seaborn

Deployment & Tools: Streamlit, Flask, Git, GitHub, Jupyter Notebook, VS Code, MySQL, AWS

PROJECTS

Student Performance Predictor — Supervised Learning (Regression) | Python, Scikit-learn, Pandas, NumPy, Streamlit

Live Demo: student-performance-application.streamlit.app | GitHub: github.com/Shivmehta04/student-performance-app

- Built and deployed an end-to-end supervised ML pipeline predicting student academic performance from demographic and study-habit features, achieving 88% prediction accuracy with a tuned Random Forest Regressor.
- Designed a preprocessing pipeline (missing-value imputation, categorical encoding, feature scaling) to convert raw survey data into model-ready inputs.
- Trained and benchmarked multiple regression models (Linear Regression, Decision Tree, Random Forest) to select the highest-performing algorithm.
- Deployed a real-time prediction interface on Streamlit Cloud, delivering instant performance forecasts through an interactive web UI.

Sentiment Analyzer — Natural Language Processing | Python, NLP, Scikit-learn, Streamlit

Live Demo: sentiment-analyzer-project-nlp.streamlit.app/ | GitHub: github.com/Shivmehta04/sentiment-analyzer

- Developed a 3-class NLP text classification system (positive / negative / neutral) using TF-IDF vectorization and Logistic Regression, achieving 76% test accuracy.
- Implemented a full NLP preprocessing pipeline — tokenization, stop-word removal, and TF-IDF feature extraction — on 60,000+ labeled text samples.
- Trained and evaluated multiple classification models (Logistic Regression, Naive Bayes) to identify the best-performing sentiment classifier.
- Deployed a live inference app on Streamlit Cloud enabling real-time sentiment prediction on user-submitted text.

Customer Segmentation Dashboard — Unsupervised Learning | Python, Scikit-learn, K-Means, PCA, Streamlit

Live Demo: customer-segmentation-project-0.streamlit.app | GitHub: github.com/Shivmehta04/customer-segmentation

- Built an unsupervised ML web app segmenting 200 customers into 5 distinct behavioral groups using K-Means Clustering on income and spending-score features.
- Applied the Elbow Method and Silhouette Score analysis to statistically determine the optimal cluster count (K=5); used PCA for dimensionality-reduced cluster visualization.
- Translated unsupervised clusters into 5 actionable business segments (e.g., Premium Customers, Budget-Conscious) with tailored marketing recommendations per segment.
- Deployed an interactive Streamlit dashboard featuring real-time segment prediction, confidence scoring, and visual analytics (scatter plots, segment-distribution charts).

EDUCATION

B.Tech, Computer Science & Engineering — GLS University, Faculty of Engineering and Technology, Ahmedabad

2023 – 2027 | CGPA: 8.2 / 10

12th (CBSE) — White House Public School, Bhuj | 2022 – 2023 | 82.8%

10th (CBSE) — White House Public School, Bhuj | 2020 – 2021 | 93.8%

CERTIFICATIONS & ACHIEVEMENTS

- AWS Certified Cloud Practitioner — Amazon Web Services
- Foundations of AI — 7-Day Workshop Certificate, Green Skill Initiative
- 1st Prize, Cyber Shadez Inter-College Treasure Hunt Competition — GLS University
- Participant, Adani Hackathon
- Merit-Based Scholarship (₹45,495), GLS University — awarded for academic excellence in Class 12 (CBSE)
